

How To View Open Tickets In CHI

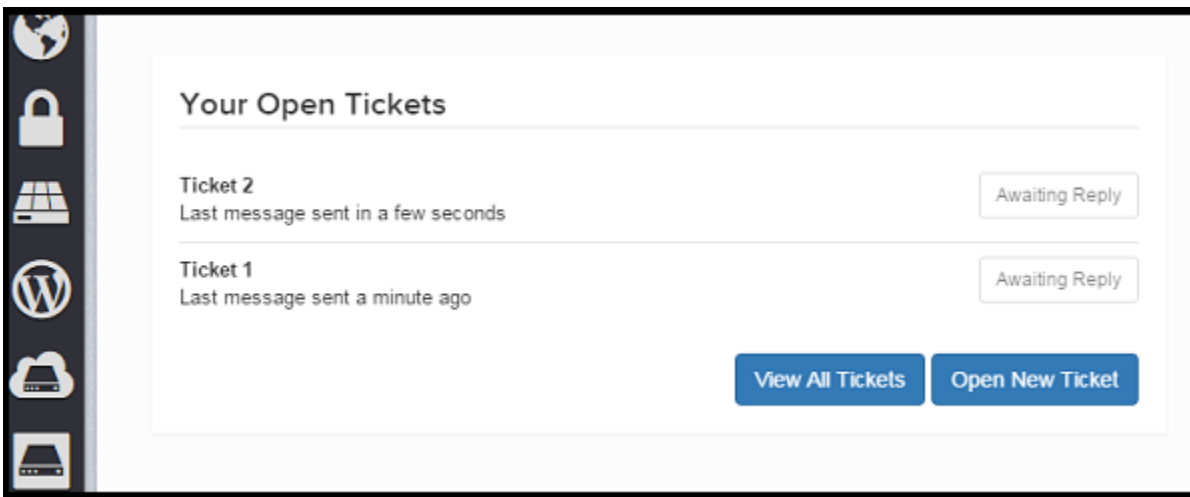

This article will guide you through using the WestHost open ticket section and show you how to view all your open support tickets.

Tickets are an easy option when working with our technical support team. You can view all your open tickets in one easy screen through the support section inside of CHI, at chi.westhost.com.

Once you have logged into CHI with your username and password, click on the 'Support' icon from the menu on the left hand side of your screen.

You will then be taken to a page where you can view all of your open tickets.

This page displays any tickets you have that are still open, as well as view the time and date when the last message was sent for that ticket.

If you have any questions, feel free to contact WestHost support through chat or by submitting a ticket within your CHI dashboard.
