

# What Is Firefox

*This article is for cPanel Accounts. Determine where your account is with [this guide](#).*

WestHost recommends using the Firefox browser for your cPanel and other hosting environment tools.

Firefox is a web browser developed by Mozilla as a reliable alternative to Microsoft's Internet Explorer. We recommend using Firefox for best compatibility and security when accessing cPanel. You can download Firefox for free at <http://www.mozilla.com/en-US/firefox/new/>
