

How To Upgrade A Shared Hosting Package

This article will help WestHost clients change their Shared Hosting service plan.

- Step 1: Navigate To Your Shared Hosting Package
- Step 2: Follow The Change Your Package Directions
- Step 3: Choose Your New Hosting Package

Step 1: Navigate To Your Shared Hosting Package

1. Log into chi.westhost.com.
2. Click "Shared Hosting" from the left menu bar.
3. Select your domain name from the domain list.

Step 2: Follow The Change Your Package Directions

4. Click the "Change your package" button from the right side of the page.
5. Choose to regrade your package today or when it renews.

Step 3: Choose Your New Hosting Package

6. Select the service package that you desire from the drop down menu.

7. Proceed through checkout, selecting payment information and clicking "Checkout".

Your changes will then be processed. If you have any questions please feel free to submit a ticket or chat with our Billing team.
