

How Are SSL Services Renewed

Clients with SSL services are notified by email 30 days in advance of their expiration dates and invoiced 20 days before the certificate expires. Payment arrangements should be made prior to the expiration date to avoid a disruption of service. If you do not wish to continue this service, please contact our billing department with authorization to discontinue this service. The service will automatically cancel if payment arrangements have not been received prior to the invoice reaching 15 days past due.
