

How To Change The Password In Site Manager

This article will assist all WestHost clients using Site Manager to reset an account password.

Step 1: Log into your Site Manager account.

1. Navigate to "[yourdomain.com/manager](#)".

Replace "yourdomain" with the domain name for the account you are signing into.

2. Enter your username and password and click "Login".

Step 2: Navigate To Change Your Password.

3. From the list of options along the left side of the page, select "Change Password" from below "Account Settings".

Step 3: Enter New Password.

4. In the "Enter New Password" box, type in your new password.
5. Retype your password to confirm.

Passwords must be 6-8 characters long, contain both letters and numbers, and should not be based on a dictionary word.

6. Click the "Update" button.

Your new password will be changed immediately.

If you have any trouble resetting your password, please [contact](#) us.
