

# How To Navigate The Users Menu

The User Account Control Panel is comprised of three main sections:

1. **Main Navigation Menu:** These are the different area of your Site Manager. Clicking on these links will expand or contract the Sub Navigation Menu under each section.
2. **Sub Navigation Menu:** The Sub Navigation Menu displays the sperate sub sections of the Main Navigation Menu of Site Manager. These sections are expandable and collapsible by clicking on the Main Navigation Menu heading of each section (by default they are all expanded).
3. **Details Pane:** The details pane contains the main Site Manager contents. This section will change as you navigate through Site Manager and will be your main work area as you make changes and view information.
