

DNS - Domain Name Server Information

This article is for cPanel Accounts. Determine where your account is with [this guide](#).

For cPanel Shared hosting accounts, the DNS or Domain Name Servers will be as follows.

dns1.westhost.com

dns2.westhost.com

dns3.westhost.com

No custom DNS are available in the shared environment.

 *DNS changes can take 3 - 24 hours to propagate throughout the Internet.*
